

Virtual Internship Testimonials

AES was able to give me an opportunity during a time of much uncertainty. Just when I was feeling a loss of purpose, as Covid-19 took us all by surprise, AES reached out to me and was able find a great match for my skill set at Thomson Foundation. Each experience I've had has been delightful. I would recommend AES to anyone searching for opportunities abroad, as they make the experience manageable and worthwhile.

Anna, Virtual Journalism Intern

Having the opportunity to intern with AFFORD this summer has allowed me to gain experience in a field I wasn't used to and I was able to learn a lot about International Affairs. This internship has strengthened my research and data analysis skills and I was very lucky to be a part of a very welcoming team. I am glad I got to spend my summer working for AFFORD and I am excited to see what I will learn in the coming weeks.

Lidya, Virtual Finance and Economics Intern

The best of the internship so far is the fact that I am able to work alongside and build relationships with outstanding professionals on the other side of the globe right from my house.

Jonathan, Virtual Business Analytics Intern

I loved the opportunity to work with a company with such a different perspective on the world. They have really helped broaden my perspective. I loved my time with Xelix!

Cory, Virtual Business Intern
